Summary

Computer Science graduate with hands-on experience across operations, administration, inventory logistics, customer support, and data-informed problem solving. Skilled in Excel, Power BI, SQL, CRM systems, reporting, project and program support, documentation, process improvement, stakeholder coordination, and business operations. Combines technical capability with practical experience managing priorities, maintaining accurate records, coordinating workflows, and turning operational information into actionable insights for project, operations, administrative, program-support, and entry-level analyst roles.

Professional Experience

Associate

HomeSense (TJX Canada) - Charlottetown, PE (Jun 2026 - Present)

- Support daily store operations across merchandising, replenishment, recovery, inventory flow, and customer service in a fast-paced environment.
- Coordinate incoming merchandise from receiving and backroom areas to the sales floor, supporting accurate product availability and efficient inventory flow.
- Work with associates and managers to prioritize changing operational needs, coordinate tasks, and maintain pricing, presentation, and department standards.
- Manage multiple time-sensitive priorities, resolve day-to-day issues, and support consistent, process-focused execution.

Operations Associate (Stock & Merchandising)

Walmart - Sault Ste. Marie, ON (Dec 2023 - May 2026)

- Managed receiving and backroom operations, handling 1,000+ units per shift through structured unloading, sorting, staging, inventory movement, and organization.
- Tracked inventory, reconciled stock discrepancies, and used internal systems and Excel-based workflows to support accurate records, data management, and reporting.
- Coordinated stock flow and replenishment across operational priorities to maintain product availability, inventory accuracy, and service levels.
- Improved day-to-day workflow through planning, task prioritization, structured problem solving, and continuous process improvement.
- Collaborated with team members and management across departments to complete time-sensitive work and support cross-functional operational goals.

Customer Service Agent

IO Solutions - Charlottetown, PE (May 2023 - Aug 2023)

- Supported Fido and Rogers Communications customers in a high-volume contact centre, resolving account, service, and technical inquiries.
- Used CRM systems to document interactions, manage follow-ups, maintain accurate customer and case information, and support data quality.
- Identified recurring issues and escalation patterns, applying structured problem solving to support faster and more consistent resolution.
- Coordinated with internal support teams to resolve escalations, communicate updates, and meet service-level expectations.

Administrative Assistant

Beliyo Fashions - Mahabage, Sri Lanka (Oct 2020 - Dec 2022)

- Supported daily business administration, inventory coordination, vendor communication, document organization, and operational follow-up.
- Prepared and maintained reports, records, and business information to improve visibility into day-to-day operations and support decision-making.

Administrative Assistant (continued)

Beliyo Fashions - Mahabage, Sri Lanka (Oct 2020 - Dec 2022)

- Coordinated vendor and client communication while tracking follow-ups, requirements, and information across internal and external stakeholders.
- Improved administrative workflows through structured task organization, documentation, records management, and process improvement.

Volunteer Tutor

Independent - Sri Lanka (Apr 2021 - Sep 2022)

- Mentored students through structured academic support, planning learning activities and tracking progress across key subjects.
- Applied research, problem-solving, and planning techniques to simplify complex concepts and adapt support to different learning needs.
- Strengthened communication, organization, and time-management skills while managing multiple students and priorities.

Education and Training

Bachelor of Computer Science

Algoma University - Sault Ste. Marie, ON (Jan 2023 - Apr 2026)

International Advanced Level - Business & IT

St. Joseph's College - Colombo, Sri Lanka (May 2019 - Jun 2022)
